

Course Details

Safety Management System

Prerequisite: A background in an aviation environment is an advantage although not essential.

Learning Objective: To enable delegates to fully understand the ICAO SMS Requirements and the intent behind them.

Duration: 1 Day (Initial), 1 Day (Refresher)

Language: English. Student must have the ability to read, write and communicate at a functional level in the English language.

Course Location: Hindustan Institute of Engineering Technology in Chennai, India or at customer site.

Training Syllabus: With SMS we have a set of regulations, which allow Industry to establish best-practice that fits different cultures and place the main emphasis and duty on improving safety performance. This requires a real “team effort” as regulator and airline are all part of one large system. Working as a team it will be possible to improve an already highly impressive safety record, and allow organisations to conduct more of their own oversight and assurance.

It will also be of benefit as a refresher to any Safety Management Stake Holders, Quality Audit Staff and persons who normally work within the Safety Management System in a maintenance or operational context.
